Heliang Gao

San Jose, CA | hgao1023.working@gmail.com | 669-344-7550 | linkedin.com/in/heliang-gao-b76587165

SUMMARY

- **Technical Background:** Developed software applications and data analysis workflows with Python and SQL, combining web development and AI tools to support financial research, prediction, and recommendations.
- **Financial Background:** 5+ years in mutual funds and asset management, covering equity research, compliance, risk controls, and fund operations; developed company analyses and investment recommendations.

EDUCATION

Santa Clara University | Leavey School of Business *Jan 2025 - Expected Dec 2026*
Master of Science in Information Systems (MSIS) *Santa Clara, CA*

Coursework: Data Analysis | Python | Java | Database & SQL | ML | DL | NLP | Generative AI | Cloud Computing

University of St. Thomas | Minnesota *Sep 2014 - Jun 2018*
B.S. in Mathematics *St. Paul, MN*

TECHNICAL SKILLS

- **Programming & Web Development:** Python, SQL, Java, FastAPI, Next.js, PostgreSQL, Prisma
- **Data & AI:** Data Cleaning, Visualization, Database Design, Machine Learning, Generative AI, RAG
- **Cloud & Tools:** AWS, Linux, Bash, Docker, Git/GitHub, Excel

RECENT PROJECTS

AI Competitive Intelligence Platform | SCU-Flex *Jan - Jun 2026*
Business Intelligence Practicum Analyst | **Case selected for AI for Supply Chain Finance**, Ch. 11 (in preparation)

- **Prototype Design & Delivery:** Led the design and delivery of a Flex competitive intelligence prototype (Python, FastAPI, Next.js), unifying disclosures from 6 EMS companies and 5 cloud providers — 551 documents, 51,501 indexed passages.
- **RAG Q&A with Citations:** Built RAG Q&A over SEC filings and earnings calls (SQLite, ChromaDB), mapping financial terms and tagging fiscal periods, with hybrid retrieval, source citations, and LLM routing with failover.

Bank Marketing Prediction and Outreach Analysis *Jan - Mar 2026*
Machine Learning with Python

- **Prediction Workflow Development:** Led a 6-person team building a Python workflow (scikit-learn) to predict term-deposit subscriptions from 45,211 records; designed the framework, wrote initial code, and coordinated testing and revisions.
- **Model Comparison & Validation:** Compared logistic regression, decision tree, random forest, and XGBoost, with stratified cross-validation, excluding post-call variables to prevent leakage; used threshold analysis to balance coverage against contact costs.

PROFESSIONAL EXPERIENCE

Goldstate Capital Fund Management (Chinese mutual fund manager) *Shanghai, China*

Investment Research Analyst — Equity Research & Investment Recommendations *2023 - 2024*

- **Sector Coverage & Earnings:** Tracked key TMT (including electronics) and consumer companies, writing earnings reviews that compared results with market expectations.
- **Value-Chain & Company Research:** Conducted due diligence on listed, pre-IPO, and related private companies — including subsidiaries and upstream/downstream players — to map value chains and assess risks.
- **Investment Recommendations:** Wrote in-depth company reports and presented Hold/Overweight ratings with industry-cycle and timing views at investment meetings, helping update the stock pool and monitor holdings.

Compliance Manager — Product Compliance & Risk Controls *2022 - 2023*

- **Compliance & Risk Controls:** Updated compliance policies, risk controls, and product structures for regulatory changes; assessed new products on structure, partnerships, credit enhancement, and due diligence.

Shanghai Goldstate Brilliance Asset Management (Chinese asset manager) *Shanghai, China*

Operations Manager — Product Design, Structuring & Operations *2019 - 2022*

- **Fund Operations at Scale:** Ran full-lifecycle operations for 100+ concurrent asset management products (over RMB 40 billion in assets), from product setup and structuring through valuation, impairment, distributions, and fund flows.
